

Hertfordshire METRO

Light Rail Metro Conversion Of Abbey Flyer
Tram-Train Operation Over Existing Tracks To
Rickmansworth, Hatfield & Beyond

FUTURE PHASE

- new connection under WCML
- shared running with TfL services
- tram-train LR vehicles to use LUL 4-rail electrification (same voltage as branch OHLE)
- possible further extension to Chesham

FUTURE PHASE

- old route reused where possible
- new route to bypass obstacles also serves University & De Havilland site

THE FIRST PHASE

- existing route adapted
- new passing loop, 'Penryn style'
- OHLE retained & converted to LUL voltage DC
- new high platform LRV tram-train rolling stock
